

## Belinay Art Programme

Nurturing creativity and self-expression through various art forms, including painting, drawing, and crafting!

Our unique Art Programme is designed to foster self-expression and ignite creativity in young minds. Through hands-on activities with various art media, children explore different techniques and styles, building a strong foundation in artistic expression. From painting and drawing to sculpting and crafting, our programme encourages children to experiment and discover their unique artistic voice. We transform early art experiences into a lifelong appreciation for creativity and personal expression. Don't forget to check out our children's masterpieces in the Belinay's Budding Artists Gallery
