

Belinay Phonics Programme

At Belinay, we incorporate Jolly Phonics, a dynamic and interactive literacy program designed to teach children the fundamental skills of reading and writing.

Using a multi- sensory approach, we use Jolly Phonics to introduce letter sounds through engaging songs, stories, and actions, making learning fun and memorable. Our experienced educators guide children through the stages of phonics, helping them develop strong decoding and blending skills. This method not only fosters a love for reading but also builds a solid foundation for future literacy success. Join us at Belinay Nursery and watch your child's confidence and abilities grow with Jolly Phonics.
