

World Citizenship Programme

Introducing children to different cultures and communities, promoting empathy, respect, and global awareness!

Our World Citizenship Programme is designed to instil a foundational understanding of the diverse world around us. Through interactive activities and cultural exploration, children learn about different countries, traditions, and communities. Our programme fosters empathy, respect, and a sense of global awareness, encouraging children to appreciate the rich tapestry of humanity. Join us at Belinay Early Learning Centre, where we nurture young minds to become compassionate, informed, and active global citizens.
